

AT-HOME AND IN-OFFICE CARE

It's not just skincare, it's science

Founded in 1991 by two pharmacists and a dermatologist, Glytone combines pharmaceutical expertise with dermatology to create innovative, Glycolic Acid-based skincare products that transform and improve skin tone.

AT HOME PRODUCTS

AGE-DEFYING

Leveraging power-packed peptides, AHAs and antioxidants to restore healthier, younger-looking skin.

BRIGHTENING

Visibly brighten skin for a more even, radiant complexion.

BODY THERAPY

Exfoliate and resurface rough and bumpy skin to reveal smooth, hydrated and softened skin.

REJUVENATING

Stimulates skin's natural exfoliation process through gradual, increasing strengths of Glycolic Acid to improve skin health.

MICRO-PEELS

Daily, exfoliating serums featuring clinical strength active acids to optimally address different skin concerns.

ACNE THERAPY

Clear breakouts and prevent acne for healthier-looking skin.

SUN PROTECTION

Protect and defend skin against sun damage & oxidative stress to prevent skin aging.

RECOVERY

Nature dehydrated, post-procedure skin with water and lipids to restore a healthy skin barrier.

IN-OFFICE CHEMICAL PEELS

Professional Treatments

Chemical Peels feature a unique Enerpeel® Technology for enhanced penetration and deeper results with minimal irritation. Each peel is packed with powerful acids to penetrate the skin for consistent, reliable exfoliation and long-lasting, visible results.
